The PURPOSES OF THE GREAT NORTH PLAN

The Great North Plan has four main ‘purposes’, which might be set out as a set of unfolding objectives for the northern region:

1. A vision for the North
2. A set of collaborative strategies
3. A programme for investment
4. A governance architecture

Each of these purposes could be sub-divided into more detailed planning processes, as in the Northern Transport Strategy; each will require supporting processes that will spur other developments. The purpose framework identifies potential ‘layers’ of planning that need to be fitted together through collaborative action involving many stakeholders; and proposes a process for the next steps in moving from blueprint to plan.
